### **Findings of Graduates Exit Survey of Academic Year 2023/2024**

To assess the student learning outcomes, an exit survey is used to collect feedback. Particularly, we asked students to indicate if they can achieve the learning outcomes. 22 out of the 78 graduated students submitted the exit survey and the response rate is 28%. Generally speaking, more than half of the students agreed that they can achieve the learning outcomes. Reviewing the findings, we will continue to provide information concerning applications and professional career options for students.

<b>Learning Outcome</b>	<b>Strongly agree</b>	<b>Agree</b>	<b>Neutral</b>	<b>Disagree</b>	<b>Strongly disagree</b>
Describe key concepts, principles, and overarching themes in psychology	24%	65%	12%	0%	0%
Describe applications of psychology	18%	59%	18%	6%	0%
Interpret, design, and conduct basic psychological research	35%	59%	6%	0%	0%
Apply ethical standards to evaluate psychological science and practice	24%	65%	12%	0%	0%
Communicate effectively with peers or colleagues	29%	53%	12%	6%	0%
Communicate effectively with those in the psychology profession	35%	41%	18%	6%	0%
